Symposium: Natural Playful Generative GAY Loneliness (2022)

Symposium: Natural Playful Generative GAY loneliness (2022), details

Artist:TCZ [TengChaoZhou]

It is my first solo show;
it is happening in Los Angeles.
In this show,
I want to talk about
what I care about the most:
being a lonely gay person.
I knew that I love looking at
cute guys
since I was an adolescent.

After all these years,
the passion did not become
something that I'm so used to
and therefore have no desire
to mention
On the contrary,
it becomes something
that I'm obsessed with
and willing to chat endlessly about.

I feel okay to be a gay person
in LA.
There are many gay people around,
but life is still lonely.
Though I'm not in a rush,
I do want to say that
I feel lonely and
I miss having company.

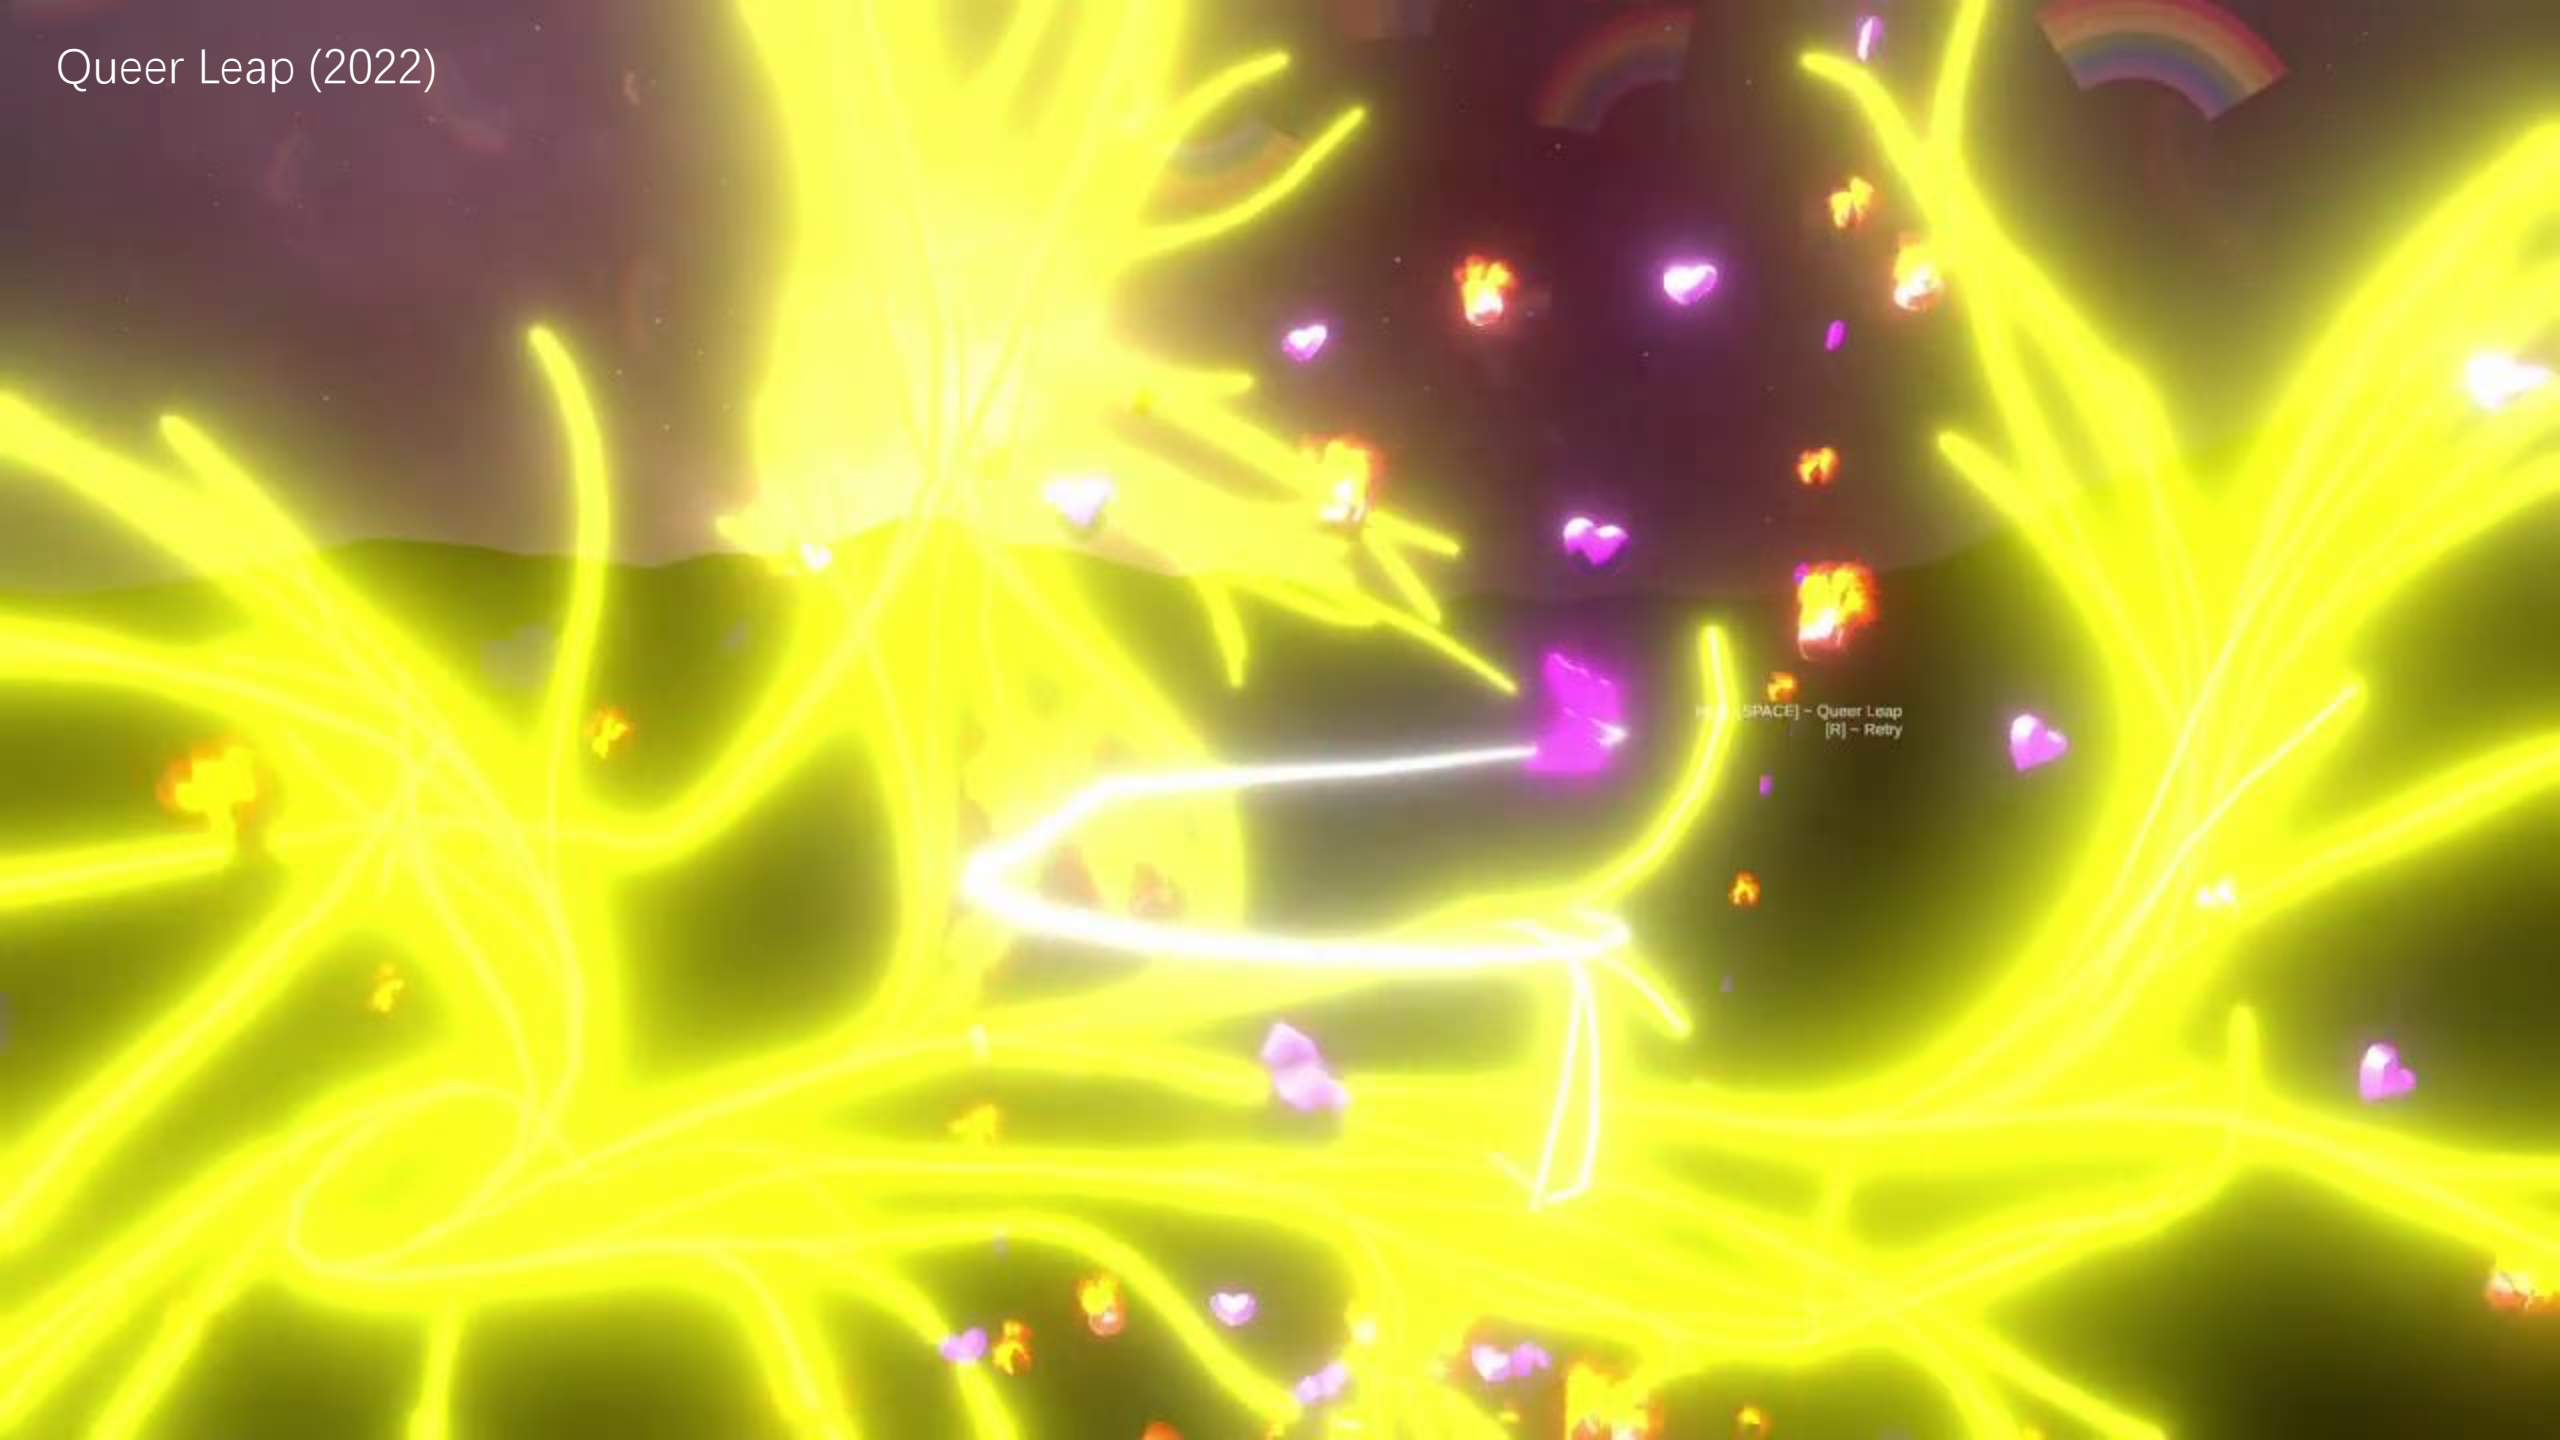

During this lonely period of life
I want to crack jokes with you,
to make you and myself happy.
And I like to read
Plato's Symposium with you,
a classical text that tells us
a distant tale,
where several males gathered
to drink and to converse
about love between men.
